Berowra Waters Accessible Path and Viewing Platform Proposal

Overview

Council is planning upgrades to the Great North Walk (GNW) between Berowra Waters and Cowan, which is a very popular walking track for locals and tourists. The track has become degraded over many years of use and is beyond general maintenance activities. There has also been concerns raised by the public for the trails' condition in recent years.

Proposal

Council is proposing to compliment these upgrades to the GNW by constructing an accessible path and viewing platform suitable for wheelchair access at the end of Kirkpatrick Way, Berowra Waters.

The proposal includes:

- Accessible path and Viewing platform
- Seating
- Provision of an accessible car parking space
- Coordination with interpretive signage

Proposed works are anticipated for completion by June 2023.

Please see the attached plan of the proposal.

If you wish to provide comments on this plan, please title your submission 'Berowra Waters Accessible Path and Viewing Platform Proposal – Reference Number F2022/00230' and forward to Council at: hsc@hornsby.nsw.gov.au

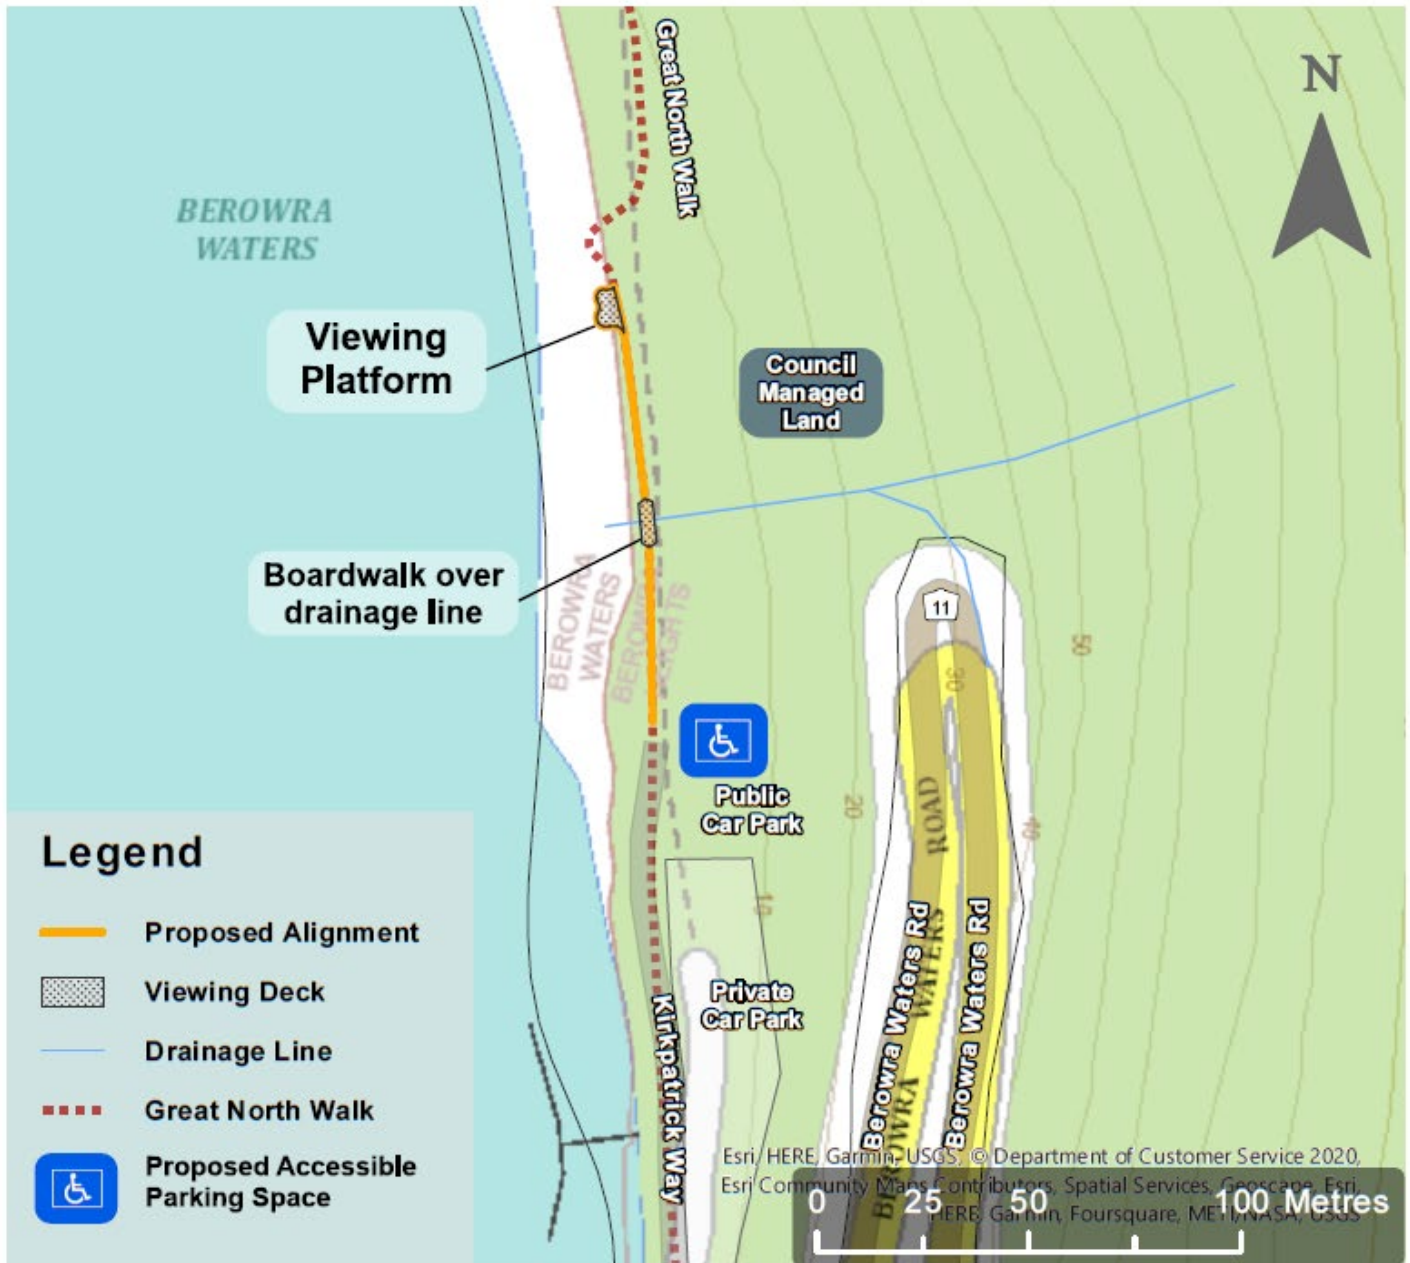

Any correspondence relating to proposals is requested to be received by **28th August 2022**. If you require any further information, please contact Anthony Newling on 9847 6839 or anewling@hornsby.nsw.gov.au

Yours faithfully,

David Green
