

28 October 2022

Dear Sir/Madam,

## Notification of Proposal to Convert One Parking Bay in the Existing Council Carpark Located at 107 Beecroft Road, Beecroft 2119 to designated Electric Vehicle Parking

### The Proposal

In order to assist the transition to electric vehicles in the Hornsby Council Local Government Area, JOLT will soon be deploying free public charging in selected locations within the local community. In consultation with Council, an existing car park at 107 Beecroft Rd, Beecroft has been identified as a potential location. Electric vehicle charging points have proven to boost surrounding commercial activity by providing an additional use to supplement existing infrastructure.

To facilitate this upgrade, it is necessary for one (1) existing car parking bay to be converted to “No Parking: Electric Vehicle Excepted Only While Charging” (RMS Sign no. R5-41-5).

### Site Plans

A plan of the proposed parking alterations is attached.

### Image of Traffic Sign (RMS Sign no. R5-41-5)

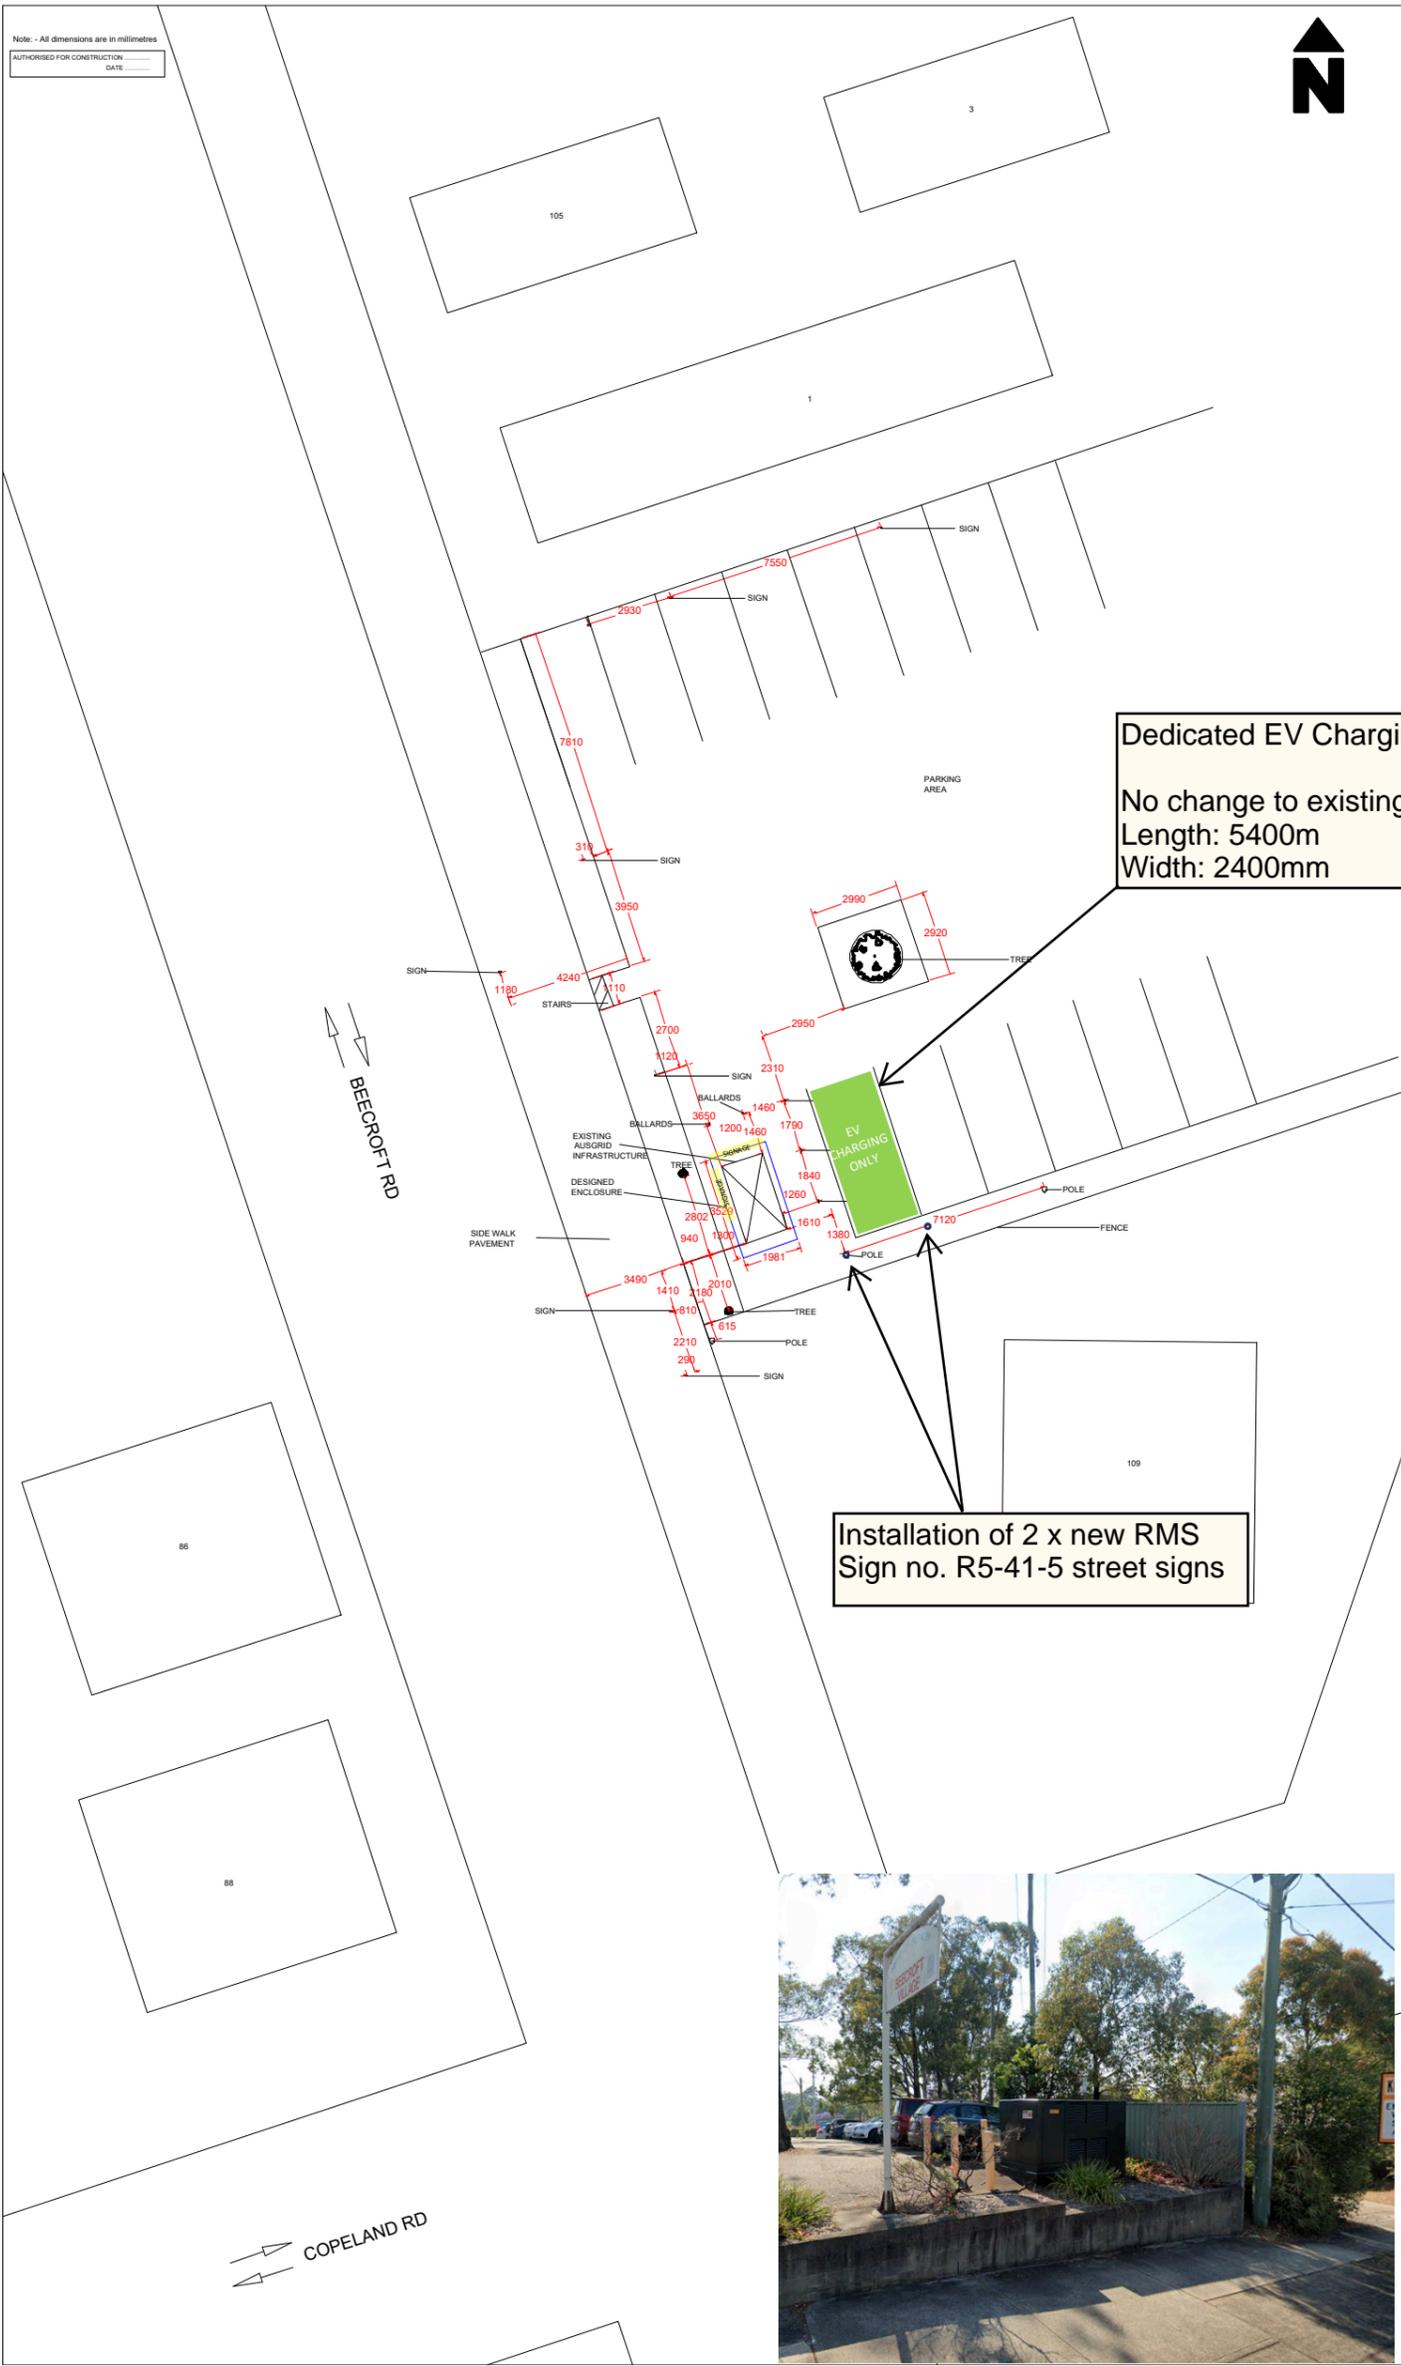

### Next Steps

JOLT invites your comments on the proposal by close of business 14 November 2022. The results of the consultation will be referred to the Hornsby Local Traffic Committee for consideration and recommendation to Council.

Please email all submissions to [info@joltcharge.com](mailto:info@joltcharge.com) by the close date.

Yours Sincerely

**Andrew Giannasca**  
Program Director  
JOLT Charge Pty Ltd
